

## The **optomap**<sup>®</sup> Retinal Exam:

- ✓ **Is fast, easy, and comfortable**
- ✓ **Provides a permanent record for annual review**
- ✓ **May alleviate the need for dilation**

An **optomap**<sup>®</sup> Exam gives us a panoramic image of the surface of your retina. These images help the doctor assess the health of your eyes and check for conditions including macular degeneration, glaucoma, and retinal detachments. *These problems can threaten vision, sometimes without warning or symptoms.*

Serious health problems unrelated to the eye such as diabetes, hypertension, heart disease, some cancers, and auto-immune disorders, can also be detected with an **optomap**<sup>®</sup> Exam. **Early detection could help save your vision or your life.**

**The cost of the optomap<sup>®</sup> Exam is only \$39.** *(You may use your HSA or Flex Spending Account)*

\_\_\_\_\_ I understand that the **optomap**<sup>®</sup> retinal exam will be performed today and do not have any questions.

Signature: \_\_\_\_\_ Date: \_\_\_\_\_
